NOTIFICATION TO MEMBERS

Council is committed to working with all our members and has taken initiative to personally contact members with respect to Bylaw No. 17 to examine their concerns. This will be addressed by Council at regional meetings and the upcoming AGM in an attempt to present a clear path forward. Council urges all members to adhere to Bylaw No. 17 and to familiarize themselves with the active Bylaw and the Information Brokerage Limited (IBL) systems.

A repository of existing land surveys allows surveyors to search geographically. It is a critical first step to the advancement of the Land Survey Profession providing public protection and further asserts that ANLS is pro-active in maintaining its status as a self-regulatory body.

If you have any question, concerns and/or recommendations pertaining to Bylaw No. 17, please formally contact Council.

Respectfully,

Neil Parrott, NLS, CLS, President,
Association of Newfoundland Land Surveyors
